

FRONTIERS IN GENOMICS

SYMPOSIUM 2017

A CELEBRATION OF THE INSTITUTE FOR GENOME SCIENCES' 10TH ANNIVERSARY

Please join us for a day of innovative discussion and scientific exchange, as we host **internationally recognized scientists who will share new discoveries in genomics, bioinformatics and personalized medicine.**

From the Human Genome Project to Precision Medicine: A Journey to Advance Human Health

Eric D. Green, M.D., Ph.D.

Director, National Human Genome Research Institute
National Institutes of Health

African Evolutionary Genomics: Implications for Human Evolution and Disease

Sarah A. Tishkoff, Ph.D.

David and Lyn Silfen University Professor
Departments of Genetics and Biology
University of Pennsylvania

A Gut (Microbiome) Feeling About the Brain

John F. Cryan, Ph.D.

Professor, Chair, Dept. of Anatomy & Neuroscience,
University College Cork, Ireland

Me to We: Searching for the Genetic Roots of Social Life

Gene E. Robinson, Ph.D.

Director, Carl R. Woese Institute for Genomic Biology
University of Illinois at Urbana-Champaign

The Inside Scoop: Interactions in Flu Infections

Elodie Ghedin, Ph.D.

Professor of Biology, and Global Public Health
Director, Center for Genomics & Systems Biology
New York University

Thursday, November 16, 2017
8:30 am - 4:00 pm

University of Maryland Baltimore
School of Nursing Auditorium
Room 130

655 W. Lombard Street
Baltimore, MD 21201

If you're interested in attending, please
RSVP to igs-event@som.umaryland.edu
